AB SCIEX Statement

September 22, 2011

AB SCIEX has entered into an agreement to acquire the mass spectrometry business of Labindia Instruments Pvt. Ltd.

Message to Customers

“AB SCIEX is committed to investing in India and supporting the high levels of service that Indian scientists expect from Labindia’s team to support their use of AB SCIEX technologies. We will build on the proven capabilities of Labindia’s mass spectrometry team that will continue to serve India’s scientific community as part of AB SCIEX upon close of the transaction, which is expected by early Q4 of this year. We look forward to completing the transition without any disruption to the daily work of Indian scientists and laboratory analysts and then connecting with customers to hear about their evolving needs for analytical solutions going forward.”

– Rainer Blair, President of AB SCIEX

About AB SCIEX

AB SCIEX helps to improve the world we live in by enabling scientists and laboratory analysts to push the limits in their field and address the complex analytical challenges they face. The company’s global leadership and world-class service and support in the mass spectrometry industry have made it a trusted partner to thousands of the scientists and lab analysts worldwide who are focused on basic research, drug discovery and development, food & environmental testing, forensics and clinical research. With over 20 years of proven innovation, AB SCIEX excels by listening to and understanding the ever-evolving needs of its customers to develop reliable, sensitive and intuitive solutions that continue to redefine what is achievable in routine and complex analysis.
